

CAPABILITIES STATEMENT

Residential | Commercial | Civil

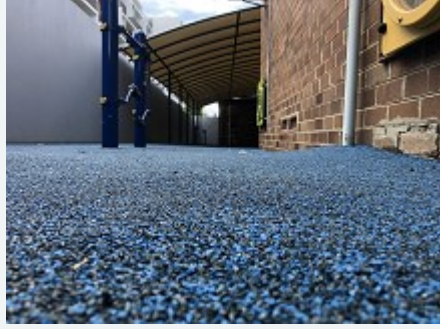

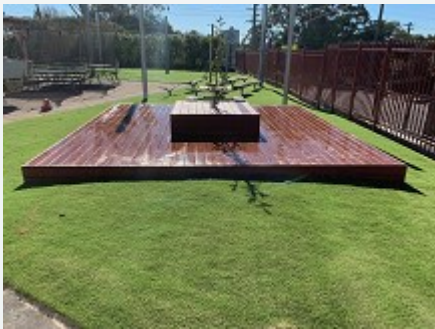

Are you looking for a Landscape Professional for your next landscaping project?

CONNECTING YOU TO THE LANDSCAPING RESOURCES YOU NEED

Westcon Landscaping is a full service landscape construction business working across the civil, commercial and residential sectors. Our core business is retaining wall construction with a focus on segmental and reinforced masonry walls, concrete crib walls, gabion and sleeper retaining walls on new housing sub-divisions across Western Sydney. We take engagements on a both a design / construct / certify and a construct only basis. We also provide a complete turn-key landscaping solution for new homes inclusive of fencing and driveways direct to builders to and private residential clients alike.

Westcon Landscaping supply & install softfall rubber, synthetic turf surfaces & playgrounds for schools, childcare centres, parks & playgrounds.

Residential or commercial, there is no landscape project too big or too small. Be it a designer, landscape contractor or maintenance specialist, as a member of The Landscaping Association, we are required to have the appropriate licensing for working in the field so you can be confident we have the skills to get the job done right. Start making your landscaping dreams a reality.

WESTCON LANDSCAPING is an Australian owned family run landscaping business that delivers a comprehensive scope of residential, commercial and civil contracting servicing Sydney, Central Coast and Wollongong.

Established by brother-in-law's Brent Hogan (Managing Director) and Dallas Weston (Project/Construction Manager) our aim is to establish lasting partnerships with our clients by exceeding their expectations through outstanding performance by every member of our team. Our team are highly experienced and dedicated to delivering as promised.

We work with a range of clients, companies and developers as their preferred choice when embarking on projects that require a range of tasks completed to a high standard and within deadline.

Our strong growth has been as a result of consistently delivering quality works both on time and on budget to a high level of safety. We have a developed and implemented integrated management system that ensures our work health and safety, quality and environmental obligations are not only met but continuously improved on.
